

FLIGHT MEDICINE

Flight Medicine is an one day course that covers patient care in both fixed wing & rotary transport environments for those who want to enter the field of flight medicine

This course provides an introduction or review for those who might be interested in a career as a flight nurse, paramedic, or respiratory therapist or for those already in the flight arena.

Course is approved by the Los Angeles County EMS Agency for flight physiology & aeromedical emergencies and meets the continuing education and accreditation requirements for current flight crew members.
